ECONOMIC COMMISSION FOR AFRICA
Fourth Meeting of the Trans-African
Highway Co-ordinating Committee
Lagos, 3-6 April 1974

FEEDER LINKS TO THE TRANS-AFRICAN HIGHWAY

FIVE YEAR WORK PROGRAMME

Feeder Links to the Trans-African Highway
Five Year Work Programme

1. The Trans-African Highway project which connects Mombasa (Kenya) with Lagos (Nigeria) through Uganda, Zaïre, Central African Republic and Cameroon is also of interest to the following 11 countries which would be linked to the Highway by feeder roads: Burundi, Chad, Congo, Ethiopia, Gabon, Malawi, Rwanda, Somalia, Sudan, Tanzania, and Zambia,
2. The current status of the feeder roads, which is shown country by country in Annex I, may be summarized as follows:
 - (a) of the total length of 14 071 km, about 9 229 km (66%) are of all-weather standard and these are composed of:
 - (i) 4 534 km bitumen surfaced roads;
 - (ii) 4 695 km all-weather but not bitumen surfaced roads; and
 - (b) the remaining 4 842 km (34%) consist of partially improved and unimproved earth roads, tracks and trails.
3. The proposed Five Year Work Programme, given in Annex I, is based on information available at the secretariat with regard to the present condition of the feeder roads.
