## A NOTE TO THE USER

Index to African Official Publications marks the beginning of an expanded service being launched by the Library of the United Nations Economic Commission for Africa (ECA) to routinely inform its users about the increasing volume of African official and intergovernmental publications received by the ECA Library. Recognizing the extreme value of these publications as authentic sources of data and information on various aspects of national/international life of its Member States and Intergovernmental Organizations, the Library has intensified efforts to systematically collect and process the publications so as to share knowledge about them.

In its capacity as the UN's regional library in Africa with responsibility for serving as a repository of these unique materials for its constituent Member States, the need to share information about what the ECA Library collects in this area has been greatly felt. The Index is therefore intended to help to widely disseminate information about these national treasured information sources. We believe that armed with such information across national boundaries, the process towards regional cooperation and integration will be greatly enhanced thus giving concrete expression to the goal of harnessing our information resources for the region's development.

In view of the fact that several Government Ministries, Offices and Institutions encounter many constraints which prevent them from publishing these materials regularly or on time, several gaps exist in the collections we receive at the ECA. We therefore wish to caution our esteemed users not to use publication dates or serial title dates (as indicated in the citations) as the only yardstick to determine the currency of the information in the publications listed. For example, an annual publication with a 1994 title e.g. Annual report 1994, does not necessarily mean that the publication is totally out of date. The publication may indeed have been produced in 1996 or even in 1997 and not in 1994.

For the ECA Library to be able to produce Indexes of official national and intergovernmental publications and materials, with up-to-date/current information, the Library needs a steady flow of these publications. We wish

to appeal to all the responsible national and intergovernmental offices/ministries/institutions to ensure that they routinely deposit these very valuable publications and materials with the ECA. We shall ensure that our databases are updated to reflect the comprehensiveness of these collections from institutions depositing materials with the Library. Depositing institutions will not only receive at least one copy one copy of each issue of the Index but will also have access to the database to enable them to share information about the publications of other contributing institutions.

Since we recognize that exorbitant postage costs may be deterring a number of ECA Member States from despatching their publications to Addis Ababa, we wish to suggest that contributing institutions, which may find the arrangement convenient, may deposit their materials with the ECA's Subregional Development Centres (SRDCs) located in the following cities: Kigali (Rwanda), for East African SRDC; Yaounde (Cameroon) for Central African SRDC; Niamey (Niger) for West African SRDC; Lusaka (Zambia) for Southern African SRDC; and Tangiers (Morocco) for North African SRDC. These ECA sub-regional offices whose contact addresses are given at the end of this note, will ensure that deposited materials are forwarded to the Library in Addis Ababa.

#### **Organization of the Index**

The Index will be issued twice a year and disseminated in print, and eventually in electronic format for those with facilities to access the information in that format. Selected entries refer largely to serials issued annually, quarterly or monthly as well as monographs received and processed by the Library within any given six-monthly period. In order to facilitate consultation of the Index, it has been organized as follows:

- (i) Information materials produced by African Government Offices/ Ministries/ Institutions and classified as official publications are alphabetically organized by country and by issuing government office or institution in Part A;
- (ii) Information materials produced by African Intergovernmental Organizations e.g. Organization of African Unity (OAU) are grouped alphabetically by issuing body in Part B;

- (iii) The mailing addresses of government publishers or national libraries are given in a separate index to facilitate contact with the producers, in case copies of publications are required
- (iv) Subject, author/publisher and geographic indexes are provided at the end of the Index to facilitate the identification of required items;
- (v) Descriptor terms selected from the thesaurus of the UN Bibliographic Information System (UNBIS) have been used to describe the subject content of the publications.

As with other outputs of the ECA Library, we shall relay on your comments and suggestions to improve subsequent issues of the Index in order to better serve your needs.

## NOTE A L'INTENTION DES USAGERS

L'Index des publications officielles africaines marque le début de l'extension du service auquel la Bibliothèque de la Commission économique des Nations Unies pour l'Afrique (CEA) procède pour informer régulièrement ses usagers des volumes au nombre croissant qu'elle reçoit. Compte tenu de la très grande valeur de ces publications qui constituent de véritables sources de données et d'informations sur divers aspects de la vie nationale/internationale des Etats membres et des organisations intergouvernementales, la Bibliothèque a intensifié les efforts qu'elle déploie pour rassembler et produire de façon méthodique ces publications afin de les faire mieux connaître.

On a estimé qu'en tant que bibliothèque régionale de l'ONU en Afrique, recueillant ces documents d'une valeur inestimable pour les Etats membres, la Bibliothèque de la CEA devait partager l'information concernant les documents qu'elle rassemble dans ce domaine. C'est pourquoi l'Index a pour objet de contribuer à une large diffusion de l'information concernant ces précieuses sources d'information sur l'Afrique. Nous pensons que la mise à disposition de ces informations dans tous les pays renforcera dans une large mesure la coopération et l'intégration régionales, concrétisant ainsi l'objectif consistant à mettre l'information au service du développement de la région.

Etant donné que plusieurs ministères, services et institutions rencontrent des difficultés qui les empêchent de publier ces documents régulièrement ou à temps, les collections que nous recevons à la CEA présentent plusieurs lacunes. En conséquence nous tenons à demander à nos usagers de ne pas se servir des dates des publications ou des dates des titres de série (comme il est indiqué dans les citations) comme le seul critère pour déterminer la valeur de l'information contenue dans les publications qui figurent sur la liste. Par exemple, si une publication annuelle porte en titre 1994 - e.g. Rapport annuel, 1994 - cela ne signifie pas nécessairement que la publication est totalement dépassée. En fait, la publication a été peut-être produite en 1996, voire en 1997 et non pas en 1994.

Pour que la Bibliothèque de la CEA puisse produire des index de publications et de documents officiels nationaux et intergouvernementaux comportant des informations à jour, il faut qu'elle les reçoive régulièrement. Nous lançons un appel à tous les organismes nationaux et intergouvernementaux - services, ministères et institutions - pour qu'ils déposent régulièrement ces publications et documents d'une très grande valeur auprès de la CEA. Nous veillerons à notre tour à ce que nos bases de données soient actualisées pour faire ressortir le caractère approfondi de ces collections qui sont constituées par les documents que les institutions déposent auprès de la Bibliothèque. Ces institutions recevront non seulement, au moins, un exemplaire de chaque numéro de l'Index mais, elles pourront, également, consulter la base de données pour connaître les publications d'autres institutions participantes.

Reconnaissant que le coût exorbitant des tarifs postaux peut empêcher un certain nombre de pays membres de la CEA d'envoyer leurs publications à Addis-Abeba, nous proposons que les institutions participantes, qui estiment que cette formule leur convient, déposent leurs documents auprès des centres de développement sous-régionaux (CDSR) dans les capitales suivantes : Kigali (Rwanda) pour le CDSR de l'Afrique de l'Est; Yaoundé (Cameroun) pour le CDSR de l'Afrique centrale; Niamey (Niger) pour le CDSR de l'Afrique de l'Ouest; Lusaka (Zambie) pour le CDSR de l'Afrique australe; et Tanger (Maroc) pour le CDSR de l'Afrique du Nord. Ces bureaux sous-régionaux de la CEA dont l'adresse figure à la fin de la présente note veilleront à ce que les documents soient transmis à la Bibliothèque à Addis-Abeba.

#### *Structure de l'Index*

L'Index sera publié deux fois par an et diffusé sous forme de publications et ultérieurement sous forme électronique pour ceux qui ont les moyens d'accéder à l'information sous cette forme. Quelques entrées indiqueront dans une large mesure les séries publiées annuellement, trimestriellement ou mensuellement ainsi que les monographies que la Bibliothèque a reçues et produites au cours d'une période quelconque de six mois. Pour faciliter la consultation de l'Index, ce dernier a été structuré comme suit :

X

---

- i) Dans la Partie A, les documents d'information produits par les services, institutions et ministères africains et classés comme publications officielles sont classés par ordre alphabétique par pays et par institution ou service public d'émission;
- ii) Dans la partie B, les documents d'information produits par les organisations intergouvernementales africaines, par exemple, l'Organisation de l'Unité africaine (OUA), sont groupés par ordre alphabétique par organe d'émission;
- iii) Les adresses postales des organismes publics d'édition ou bibliothèques nationales figurent dans un index distinct pour faciliter le contact avec ceux qui produisent les documents, au cas où on aurait besoin d'exemplaires des publications;
- iv) Les index relatifs aux sujets, auteurs/éditeurs et à la géographie figurent à la fin de l'Index pour faciliter la recherche des termes voulus;
- v) Des descripteurs tirés du thésaurus du Système d'information bibliographique des Nations Unies ont servi à décrire la teneur des publications.

Comme avec les autres produits de la Bibliothèque de la CEA, nous comptons sur vos observations et suggestions pour améliorer les numéros ultérieurs de l'Index afin de mieux répondre à vos besoins.
