UNITED NATIONS ECONOMIC COMMISSION FOR AFRICA
SURVEY OF ECONOMIC AND SOCIAL CONDITIONS IN AFRICA
1974 - 1978

Consultant to the Survey: Professor Olatunde Oloko, Ph.D (Harvard)

Introductory Statement

As you probably know the United Nations publishes periodically a World Social Situation Report in which a chapter on Africa is included. The last issue of the report appeared in 1974, and effort is now under way to produce one for the period 1974-78. In this connection the Economic Commission for Africa is gathering data on the economic and social conditions in individual countries in Africa, for the period under review, through the medium of a survey limited to a number of highly knowledgeable experts on African affairs.

The United Nations Economic Commission for Africa, under whose auspices the present survey is being carried out, will be most grateful for your co-operation in this endeavour. It would be much appreciated when completing ... the interview schedule attached hereto if documentary sources of data and opinions expressed could be cited for ease of later reference. Thank you.
