Ad Hoc Experts’ Group Meeting:
Transport Policies and Regional Integration in North Africa
Organization and participation

1. The Ad Hoc Experts Group Meeting on “Transport policies and regional integration” took place in Rabat, Kingdom of Morocco, on 27 June 2007. It was set within the context of the twenty-second meeting of the Intergovernmental Committee of Experts (ICE) of the Economic Commission for Africa (ECA) North Africa Subregional Office, devoted to the theme, Infrastructure and regional integration. Senior officials from transport Ministries of the member States (i.e. Algeria, Egypt, Libya, Mauritania, Morocco, Sudan and Tunisia), leaders of financial institutions and the private sector, and representatives of civil society, participated in the meeting. Representatives of regional development institutions were also present, and particularly the African Development Bank (ADB), the Arab Maghreb Union (UMA), and the Observatoire du Sahara et du Sahel (OSS). (See full list of participants in the Annex).

2. The deliberations of the meeting and the recommendations emanating from it dwelt on three main dimensions, viz. (i) national transport policies; (ii) the regional dimension in terms of harmonization and coordination of these policies; and (iii) financing-related implementation aspects.

Election of the Bureau

3. The participants elected the following Bureau:

   President: Dr. Ali M. R. Elmagouri, Director of Foreign Investment Affairs, General People’s Committee for Economic Trade and Investment, Libyan Arab Jamahiriya.

Transport policies and regional integration: national perspectives

4. The representatives of the seven member States (Algeria, Egypt, Libya, Mauritania, Morocco, Sudan and Tunisia) highlighted their national strategies and policies in the transport sector, demonstrating the regional constraints and perspectives.

5. The discussion was mainly centred on the need for regulation and liberalization of the various transport modes, development and modernization of the related infrastructure, as well as the efforts that need to be deployed towards greater integration among the countries of the subregion in this sector. The participants also considered the main problems besetting private-sector operators in North Africa in terms of costs, the time taken up by transactions, and administrative red tape. Another problem reposes in maintaining the current market share, even though not so much in the conquest of new markets. The foregoing can be facilitated through a transport system characterized by (i) transport infrastructure providing sea links that would be distinguished by their regularity, rapidity, efficiency and cost (air freight is too often inadequate or simply non-existent in the region); (ii) adequate related services – i.e. maintenance firms,
adequate forwarding facilities, overland transportation from these ports to the inland ports, and efficient carriage of goods from point to point; and (iii) a computerized information system that meets international standards.

**Regional dimension: prospects and challenges**

6. The participants took note of the vision of the UMA vision in terms of harmonization and coordination of transport policies. In that connection, they noted the ongoing activities and projects aimed at promoting the integration of transport infrastructure among the UMA member States, particularly in the institutional sphere, through harmonization of oversight procedures, information-sharing, promotion of regional experts’ meetings, and coordination of certain safety-related procedures. Also considered were necessary measures towards enhanced physical integration of cross-border networks, reduction or elimination of physical and international barriers between countries, and expansion of coordination actions.

7. The North Africa Subregional Office also used the meeting as a forum to make a presentation on transport policies as a catalyst for boosting competitiveness and facilitating regional integration. The main point acknowledged related to the achievements in terms of national policies and regional transport-sector development infrastructure designed to bring these on a par with global standards. It was, however, observed that these achievements still fell short of transport services needs, mainly owing to geographical and socio-political constraints which hamper the functioning of effective transport policies. The main bottleneck, therefore, was considered to be the non-coherence of actions and measures at the regional level. This fact was largely reflected in the worryingly low level of trade links between the countries of the subregion.

8. Accordingly, and in order to effectively address the present inadequacies and difficulties, the emphasis was placed on the need to foster cooperation linkages, revitalize the institutional framework, promote partnerships, and establish appropriate mechanisms for enhancing the attractiveness of the countries of the subregion for international financial flows devoted to investment in transport infrastructure. In this context, a number of measures were proposed with a view to fostering and integrating the various transport networks, and in particular: (i) expanding the coverage of transport networks; (ii) improving safety and environmental standards; (iii) loosening the various physical and regulatory barriers; (iv) harmonizing development policies, reforms and programmes; and (v) ensuring good governance in the implementation of transport policies.

**Implementation of policy: financing-related aspects**

9. The deliberations highlighted the specificity of transport infrastructure in terms of the *laissez-faire* factors at play, which in most cases are technically complex; the relatively long maturity time-frame which often brought about a high level of financial risk; and the intermodal diversity which necessitated some degree of synchronization in time and space. In the face of, firstly, the imperatives of opening up to globalization, and, secondly, the ever-rising needs, it was realized that public financial resources were less and less adequate to support such a process. Accordingly, it becomes increasingly imperative to bring in the private sector and international finance, and hence the new financing initiatives based on public-private partnerships and concession regimes. Other, more innovative, approaches could be applied to the financing of
large-scale infrastructure projects, such as project financing, “build-operate transfer (BOT)”, and “design-build-operate”.

10. At the end of the deliberations, the participants came up with the following recommendations:

RECOMMENDATIONS

1. Promotion of transport infrastructure efficiency within the context of national policies for:
   - Upscaling sector technical performance in order to build infrastructure under optimum conditions;
   - Decentralizing the physical planning for transport infrastructure in order to enhance participation by national authorities, municipalities, elected officials and civil society;
   - Creating enabling conditions for the involvement of the private sector in the development of transport infrastructure; and
   - Human capacity building and development.

2. Strengthening regional cooperation and integration through:
   - The development and interconnection of transport infrastructure in the border areas of North African countries with particular regard to road and rail transport networks;
   - The opening-up of neighbouring regions, sub-Saharan Africa, the Mediterranean, and the Common Market for Eastern and Southern Africa (COMESA) countries and the promotion of international and regional initiatives likely to strengthen regional integration, particularly among regional organizations and institutions operating in this sector; and
   - The adoption of effective policies and programmes for linking up and integrating the countries of the region.

3. Highlighting the State’s fundamental role in developing transport infrastructure and in promoting financial and banking system reforms with a view to improving the mobilization of the resources needed to finance the sector.
4. Preparation of a feasibility study on the establishment of maritime links among the countries of North Africa with a view to:

- Optimizing the cost and time involved in transporting goods and persons within the region; and
- Promoting and stimulating trade among the countries of North Africa.
WORK PROGRAMME

Wednesday 27 June 2007

Morning

09:00h – 10:30h  Transport Policies and Regional Integration: National Perspectives
10:30h - 10:45h  Coffee break
10:45h – 13:00h  The Regional Dimension: Opportunities and Challenges
               - Transport policies and regional integration – Mr. Mbarek Belmerhnia, Consultant, ECA/SRO – NA
13:00h – 14:30h  Lunch

Afternoon

14:30h – 16:00h  Implementation of Policies: Financing
               - Mr Mbarek Belmerhnia, Consultant, ECA/SRO-NA
16:00h – 16:15h  Coffee Break
16:15h – 18:15h  Conclusions and recommendations
LIST OF PARTICIPANTS

ALGERIA

1. Ms. Saida Boutafenouchet
   Head, Office of Programmes
   Ministry of Transport
   1, Chemin Ibn Badis El Moiz – El Biar
   Alger (Algérie)
   Tél : + 213 74 05 94 00 – 213 21 79 23 17 – Fax : 213 21 79 25 46 / 92 98 94
   E-mail : bsaida01@yahoo.fr

EGYPT

2. Mr. Samir Khamis
   General Manager of Planning Department
   Maritime Transport Sector, Ministry of Transport
   4, Potlomy Street
   Alexandria, Egypt
   Tel: + 203 48 42 821 / Mob. + 20 1 21 829 367 - Fax:+ 203 48 42 041
   E-mail: Mr_samir93@yahoo.com

LIBYA

3. Dr Ali M. R. Elmagouri,
   Director of Foreign Investment Affairs
   General People’s Committee for Economic Trade and Investment, Libya

4. Mr. Nasr El Din Abu Tayeb Al Gamudi
   Chief of Study Department
   Rail Executive Board, Engineering Department
   Tripoli, Libya
   Tel: + 218 21 48 01 165 - Fax: 218 21 48 01 164
   E-mail: nasrelghamudi@yahoo.uk.com

5. Mr. Bachir D. Khakhni
   Advisor Maritime Transport
   People’s General Secretariat for Transport
   Tripoli, Libya
   Tel: + 218 91 371 15 92
   E-mail: bashosman43@yahoo.com

6. Mr. Ibrahim M. Marrah
   The Great Socialist People’s Libyan Arab Jamahiriya
   Brotherhood Bureau
   Rue Imam Malik - Route des Zaers, km 5.5 - Souissi
   Rabat (Maroc)
   Tél. 212 37 63 18 71 / 72 / 73 - Fax : 037 63 18 77
L**ibyan.marrah@yahoo.com**

**MOROCCO**

7. **Mr. Abani Naïma**  
Head of the Department of Water and Sanitation,  
Directorate of Planning, High Commission for Planning  
Rabat (Morocco)  
Tél : + 212 37 76 42 25  
E-mail : naoumaba@yahoo.fr

8. **Mr. Abdeli Mostapha**  
Head of the Department of Infrastructure and Overland Transport Operations,  
Directorate of Planning, High Commission for Planning  
Rabat (Morocco)  
Tél : + 212 37 76 42 25 / + 212 65 06 30 94  
E-mail : abdeli@dp.hcp.ma – abdeli2@yahoo.fr

9. **Mr. Abdelaziz Bel Bachir**  
Head of the Research Department,  
National Railways Administration (ONCF)  
8 bis, rue Abderrahmane El Ghafiki – Agdal  
Rabat (Morocco)  
Té : + 212 37 77 45 52 – Fax : 212 37 77 00 02  
E-mail : belbachir.abdelaziz@oncf.ma

10. **Mr. Nasr-Eddine Belghazi**  
Chargé de Mission, Office chérifien des phosphates (OCP)  
2, rue El Abtal, Hay Erraha  
Casablanca (Morocco)  
Tél : + 212 22 23 05 99 - Fax : 212  
E-mail : n.belghazi@ocpgroup.ma

11. **Ms. Samira Hameda Benchekroun**  
Head of Department, High Commission for Planning  
Rabat (Morocco)  
Tél : + 212 63 07 40 14 – Fax/  
E-mail : bsamira2@yahoo.fr

12. **Mr. Tarik Iziraren**  
Head of the Department of Regional Cooperation of the United Nations System,  
Directorate of Multilateral Cooperation,  
Ministry of Foreign Affairs and Cooperation  
Rabat (Morocco)  
Tél : + 212 37 66 00 58 – Fax : 212 37 76 55 08
MAURITANIA

13. Mr. Cheikh Ould Sid’Ahmed
Advisor to the Minister of Transport,
Ministry of Transport
Nouakchott (Mauritani)
Tél : + 222 529 19 61 / 222 663 21 36 - Fax : 222 529 09 60
E-mail : sid’ahmed_cheikh@yahoo.fr

SUDAN

14. Mr. Mohamed Eisa Ahmed
Financial Inspector, Ministry of Finance and National Economy
Khartoum, Sudan
Tel: + 249 183 77 20 25 / Mob. 249 9 12 30 11 85 – Fax : 249 183 79 89 07
E-mail : moh-eisa66@yahoo.com

TUNISIA

15. Mr. Noureddine Nâanâa
Secretary-General, Tunisian National Council of Shippers,
17, rue Abderrahman Jaziri
Tunis (Tunisia)
Tel : + 216 71 28 27 71 – Cell : + 216 98 32 48 86 – Fax : 216 71
E-mail : sg@cnc.org.tn

DIPLOMATIC CORPS

16. Mr. Mouzou Kanga
Embassy of Côte d’Ivoire
7, Avenue Ouled Said - Souissi
Rabat (Morocco)
Tél : + 212 037 65 57 70 / 93 - Fax : 212 37 65 56 37

UNIVERSITIES

UNIVERSITY OF ORAN

17. Mr. Hocine Trari-Medjaoui
Professor, Dept. Of Economics, University of Oran
27, rue Zahaf Djilali
Oran (Algeria)
Tél: + 213 69 34 88 14 / Dom : 213 41 46 62 61 / Mob: 213 69 34 88 14
Fax : 213 41 45 26 38
Email: h_trari@yahoo.fr
INSTITUT DES ETUDES AFRICAINES

18. Mr. Mustapha Machrafi
   Professor
   Av. Allal El Fassi, Madinat El Irfane - Agdal
   Rabat (Morocco)
   Tél. : + 212 37 77 12 72 / 74 – Mobile : 212 60 72 96 00
   Fax : + 212 37 77 84 25
   E-mail : machrafiea@yahoo.fr

INTERNATIONAL AND REGIONAL ORGANIZATIONS

19. Mr. Smail Khennas
   Senior Energy Consultant, Practical Action Consulting
   The Schumacher Centre for Technology and Development
   Bourton on Dunsmore, Rugby, CV239Q
   United Kingdom
   Tel: + 44 19 26 63 44 81 / 44 19 26 63 44 03 – Fax: + 44 19 26 63 44 06
   E-mail : smail.khennas@practicalaction.org.uk – smail_khennas@yahoo.fr
